ISO
14001:2004

**Environmental
awareness:**
We are well-
positioned to act
upon ever-changing
environmental
requirements

Setcore

Setcore recognises that day-to-day operations can impact both directly and indirectly on the environment.

We aim to protect and improve the environment through good management and by adopting best practices wherever possible.

Setcore will work to integrate environmental considerations into our business decisions and adopt greener alternatives throughout our operations, wherever possible.

In all our activities, we aspire to:

- Prevent pollution to land, air and water
- Reduce water and energy use
- Minimise waste and increase recycling within the framework of our waste management
- Identify and manage environmental risks and hazards
- Involve customers, partners, suppliers and subcontractors in the implementation of our objectives
- Promote environmentally responsible purchasing
- Provide suitable training to enable employees to deal with their specific areas of environmental control
- Improve the environmental efficiency of our transport and travel
- Establish targets to measure the continual improvement of our environmental performance
- Comply fully with all relevant legal requirements, codes of practice and regulations.

All employees are responsible for working towards the objectives contained within this policy. The policy will be periodically reviewed for its continuing suitability.
